### **INDEX**

CHAPTER	CONTENT	PAGE
1	Vessel Particulars	3
2	Port State Controls	4
3	Classification & Insurance	5
4	Index of Certificates	6
5	ISM	8
6	Working and living conditions	9
7	Bridge, Navigation and Communication Equipment	11
8	Health, Safety and Environment (HSE)	14
9	Security (ISPS)	16
10	Life Saving Appliances (LSA)	17
11	Fire Fighting Appliances (FFA)	19
12	Pollution Prevention	21
13	General Appearance	23
14	Mooring and Lifting Equipment	24
15	Construction and Stability	25
16	Machinery Space	26

### 1 - VESSEL PARTICULARS

Vessel Pa	rticulars	
1.1	Name of Vessel	
1.2	IMO number	
1.3	Previous name(s)	
1.4	Flag	
1.5	(if the vessel has changed flag within the past six months, report date of change and previous flag in 'Additional comments')	
1.6	Port of registry	
1.7	Registered owner	
1.8	Registrered owner IMO number	
1.9	ISM Manager (if different from registered owner)	
1.10	ISM Manager IMO number	
1.11	Date current vessel operator assumed responsibility for vessel	
1.12	Manning Agent (if different from operator)	
1.13	Commercial Operator	
1.14	Number of generators	
1.15	Bow thruster fitted (number and type)	
1.16	Type of bunkers	
1.17	Date of last owner's/operator's superintendent's visit to vessel	
1.18	Date of last dry docking or in water survey	
1.19	Location of last dry docking or in water survey	
1.20	Date next dry docking due	
1.21	Is the information in the questionnaire correct, if applicable?	

Page **4** of **27** 

### 2 – PORT STATE CONTROLS

Port S	State Controls						
2.1	Has the vessel been subject to a port state inspection within the last 24 months?		Yes	No			
	Date of last PSC:						
	Location of last PSC:						
	Inspector to comment on: 1. If a copy of the report is held 2. If there were any significant r	onboard. non-conformances and/or detention procedures					
2.2	Have any deficiencies from the port state control inspection been addressed and closed out?		Yes	No	NA		
	List any deficiencies from the inspection	on which have not been closed out.					

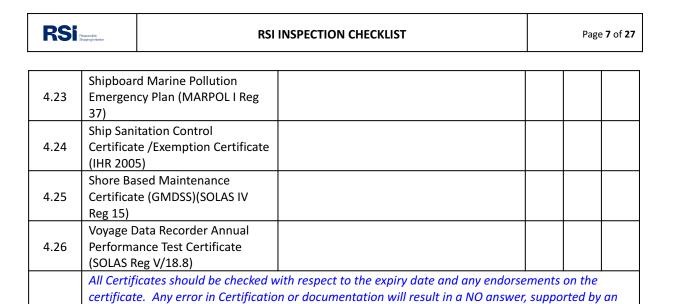

### 3 – CLASSIFICATION & INSURANCE

ication				
		Vos	NI-	
Is the Vessel issued with a Certificate of Classification		Yes	NO	
Name of Classification Society:			-	
Is the classification society a member of IACS?	DESIRED	Yes	No	
<ul> <li>€ Bureau Veritas (BV), China C</li> <li>€ Croatian Register of Shipping</li> <li>€ Germanischer Lloyd (GL),</li> <li>€ Indian Register of Shipping</li> <li>€ Korean Register of Shipping</li> <li>€ Lloyd's Register (LR)</li> <li>€ Nippon Kaiji Kyokai (Class Nimping (Baite)</li> <li>€ Polish Register of Shipping (Baite)</li> </ul>	Classification Society (CCS) g (CRS), DNV-GL (DNV-GL)  (IRS) (KR)  K) PRS)			
Is the vessel clear of conditions of class and any safety related memoranda?		Yes	No	
Give details of conditions of class out	standing and any safety related memoranda.			
Is there a Class Status Report less than three months old onboard?	DESIRED	Yes	No	
Is the Vessel issued with a P&I Certificate?		Yes	No	
Name of P&I Club:		•	•	
Is the Vessel issued with an Employer Liability Insurance Certificate?		Yes	No	
Is the Vessel issued with a H&M Insurance Certificate?		Yes	No	
Is the Vessel issued with a Bunker Oil Civil Liability Certificate (Bunker Convention 2001 Art 7)		Yes	No

observation. If any certificate is interim, make a note on expiry date.

### 5 – ISM

ISM					
5.1	Has an ISM Internal Audit been carried out within the last 12 months?		Yes	No	
		nfirm that any proposed corrective actions have	e been		
5.2	Are the DPA details available?		Yes	No	
	Confirm that the correct details of des	signated person ashore (DPA) are displayed pro	minentl	y.	
5.3	Does the vessel display current health, safety and environment policies?		Yes	No	
	Crew should be aware of current heal	th, safety and environmental policies.			
5.4	Is there a common language spoken onboard?		Yes	No	
		e is provision made for critical safety and secur c crew? Note the common language. a language(s) understood by all?	ty infor	rmatior	i to
5.5	Are arrangements in place to ensure efficient communication between personnel on the vessel and third parties?		Yes	No	
	Are OOW's able to communicate in En	nglish?			
5.6	Does the vessel operator have a drug and alcohol policy?	_	Yes	No	
	2. Note the maximum allowed level	of the policy is monitored and managed. s and frequency of drug and alcohol tests. n onboard, this is the same as alcohol level 0,0.			
5.7	Is the vessel equipped with alcohol testing equipment and is there evidence of regular testing?		Yes	No	
5.8	Is there evidence that the crew is fully involved in the safety management?		Yes	No	
	2. Is there a ship safety committee?	frequency of the meetings and verify by referen			

### **6 – WORKING AND LIVING CONDITIONS**

WORK	ING AND LIVING CONDITIONS						
	Does the manning level meet or		Yes	No			
6.1	exceed that required by the				I		
0.1	Minimum Safe Manning				I		
	Document?						
	Record the required manning and the	Actual manning in Comments					
	Are all officer's certificates valid for		Yes	No	I		
6.2	their rank?						
	Check flag state administration a	uccentance					
	Check radio licences for all deck of the control of the contr	•					
	_	igation, all deck officers must possess ECDIS certij	ficates				
		poard no ECDIS certificates are required.	Toutes	•			
	4. If there is no approved Lebis oribodia no Lebis certificates are required.						
	Are there more than two deck		Yes	No	<u> </u>		
6.3	officers including Master onboard?				Ì		
	DESIRED		<b>,</b> ,				
<i>C</i> 1	Are the crew's medical certificates		Yes	No	İ		
6.4	valid?				Ì		
	Comment if medical certificates a	l are out of date or not held					
		ical Examination for Seafarers and not the Certific	cate fo	r Med	ical		
	care providers in the crew.						
6.5	Are all crew members engaged		Yes	No			
0.5	through authorised contracts?						
	Contracts should be in accordance wit	th requirements of Maritime Labour Convention .	2006.				
	Is there a common formal hours of		Yes	No	Ì		
6.6	rest record maintained and is it				Ì		
	used correctly  1. Review evidence of compliance		ш				
	2. To be in accordance with STCW re	equirements					
	2. To be in accordance with STCW re	equirements					
	Are crew members covered by an		Yes	No			
6.7	appropriate company insurance				İ		
6.7	policy?				Ì		
	State whether there is a copy of the ir	nsurance policy publicly displayed.					
6.8	Length of contract for deck officers				I		
	Are there arrangements in place to		Yes	No	NA		
	address the general condition,				Ī		
6.9	visual appearance and cleanliness				Ì		
	of the accommodation?				Ì		
	1. Alleyways should be free of obstr	ructions and areas of low headroom to be proper	ly mar	ked.			
	2. All exits, including escape routes,	-					
	3. Fittings such as central radio and	TV antennas, lights, emergency lighting, domest	tic pipi	ng and	1		
	isolation valves, should be identif	fied and in apparent good physical condition.					
	4. Check for any improvised rigging	of radio/TV aerials or antennas.					

6.10	Are food storerooms, handling and refrigerated spaces, galleys, mess rooms and pantries clean and tidy?	Yes	No	NA					
	<ol> <li>Are galley, fridge and storeroom decks clean, dry and free from defects?</li> <li>Refrigerated spaces should be maintained at an appropriate temperature: frozen meat 15/18°C, fish room 18/25°C, veg. +2/+4°C, flour &lt;8°C, deep freeze 18°C.</li> <li>Galley fire extinguishing systems should be available for immediate use and free of defects. The catering workforce should be aware of locations and means of operation.</li> <li>Food preparation areas should be tidy and clean.</li> <li>Food storerooms and refrigerated spaces should be in a hygienic condition. Carry out random check of food stocks to ensure stock is being rotated and is not out of date.</li> </ol>								
6.11	Is there evidence to show that the vessel is free of animal or insect infestation?	Yes	No	NA					
	Comment on procedures in place to address the potential for animal or insect infesta	tion?							
6.12	Are all Medical and First Aid Equipment and facilities in good working order?	Yes	No	NA					
	<ol> <li>If a hospital is available onboard, it should be ready for immediate use.</li> <li>First aid kits should be readily available.</li> <li>Oxygen resuscitation equipment should be available for immediate use where fitted.</li> <li>If a Defibrillator is carried onboard, is it in full working order?</li> <li>Comment on how medical stores are verified and checked.</li> </ol>								

## 7 – BRIDGE, NAVIGATION AND COMMUNICATIONS EQUIPMENT

Bridge	, Navigati	on and Communication Equipment				
7.1	l	el manoeuvering eristics clearly displayed?		Yes	No	
	Vessel m	nanoeuvring characteristics should be disp	layed on the bridge.			
7.2	Are auto	o, manual and emergency changeover procedures	,	Yes	No	
	Comment on legibility, ease of access and completeness					
7.3		eck logbook fully maintained oth at sea and in port?		Yes	No

## 11 – FIRE FIGHTING APPLIANCES

FIREF	IGHTING APPLIANCES						
	Is there a fixed fire-fighting system		Yes	No	NA		
11.1	for the cargo hold? If so, state type						
	of system.						
		argo spaces on cargo ships of 2,000 GRT and up					
	protected by a fixed CO2 or inert gas fire extinguishing system complying with the provisions of the FSS						
	Code, or by a fire-extinguishing system which gives equivalent protection.						
	SOLAS Ch. II-2 Reg. 10 7.1.3						
	Is the vessel provided with fixed fire		Yes	No			
11.2	fighting equipment in accordance						
	with applicable regulations for vessel type?						
		zzles should be available for use and defect free					
	2. Emergency fire pump should be fu						
	3. Starting instructions should be cle						
		ection should be readily available and its locat	ion cle	arly mo	arked.		
	5. Operating instructions for fixed sy	stems should be clearly displayed.					
	6. Isolating valves in fire/foam syste	rm lines should be clearly marked and operation	nal.				
	7. Fixed firefighting system activation	on keys/controls to be available under suitable o	control	proced	dures.		
	Is sufficient firefighting equipment		Yes	No			
11.3	available for use and defect free?						
		be in apparent good order with operating inst	ruction	s clear	ly		
	marked.						
	2. Firemen's outfits including breath	ning apparatus should be in good condition and	l ready	for			
	immediate use.						
	3. Breathing apparatus sets should i	be ready for immediate use with fully charged (	air bot	tles.			
	4. Sufficient fully charged spare air l	bottles should be available.					
	5. Are EEBDs available, charged and	l crew trained?					
	Are records of firefighting		Yes	No			
11.4	equipment maintenance available?						
	Inspection records and inventory lists	should be maintained and kept up to date					
	Are fire detection system fully		Yes	No			
11.5	operational and tested regularly?						
	,						
	Establish operational condition of fire	detection and alarm systems throughout vesse	el.				
	Are measures in place to effectively		Yes	No			
	isolate ventilation to enclosed		103	.,0			
11.6	spaces, e.g. engine room,						
	accommodation, galley,						
	storerooms?						
	4 Ventage 1 111						
		rational (spot check) and clearly marked.					
	<u>-</u>	maintenance and testing programmes in place.					
	3. Are smoke control/clearance	procedures available and understood by crew?	)				

	Are vessel specific manuals and	Yes	No				
11.7	plans for fire-fighting equipment						
	available and up to date?						
	aranasie and ap to date.						
	1. Do all plans have the same revision number?						
	2. Are ship-specific fire training manuals available in a language understood by cre	ew?					
	Are fire control plans exhibited within the accommodation and available outside the						
	accommodation?						
	SOLAS Ch. II-2 Reg. 15.2.3						
	Are a minimum of two, intrinsically	Yes	No	NA			
	safe, two-way portable radios for						
	each fire party for fire-fighters						
11.8	communication available onboard?						
	(For vessels constructed on or after						
	1 July 2014)						
	154,7 201.)						
	In accordance with MSC91/22Add1. Ships constructed before 1 July 2014 shall comp	ly with	the				
	requirements of this paragraph not later than the first survey after 1 July 2018.

### **15 – CONSTRUCTION AND STABILITY**

CONSTRUCTION AND STABILITY								
15.1	Is there an approved stability book?	Yes	No					
	Approved stability book should be available including damage stability. (Applicable for vessels built after 1 January 2009)							
15.2	Are procedures in place to govern vessel stability through all stages of the operation?	Yes	No					
	<ol> <li>Are records kept of previous loading conditions and stability calculations?</li> <li>Note how the officer in charge can establish stability conditions without extensive calculations.</li> <li>For Solid Bulk Cargoes - A loading- or discharge plan which ensures that the permissible forces and moments on the ship are not exceeded during loading or unloading, and shall include the sequence, quantity and rate of loading or unloading. (SOLAS CH. VI Part-B Reg. 7.3 (Solid Bulk Cargoes only))</li> </ol>							

### 16 - MACHINERY SPACE

Machi	nery Space						
	Are main, auxiliary and emergency		Yes	No	NA		
16.1	plant reported to be fully						
	operational?						
		ems, e.g. hydraulic oil, oil fuel, cooling water an	d wate	r supr	lied		
	for domestic purposes, should be						
	2. Record those items of machinery	not operational, and wny.					
			Voc	Na	NIA		
16.2	Is there a planned maintenance		Yes	No	NA		
16.2	system in use?						
	1 Nata tura afaratan in usa						
	1. Note type of system in use.						
	2. Comment on number of routines outstanding						
	3. Is an inventory of spare parts being maintained?						
	Is the engine logbook fully		Yes	No	NA		
16.3	maintained in ink, both at sea and in						
10.5	port?						
	Compare entries in the main logbook	with entries in the rough log.					
	Is there a set of chief engineer's		Yes	No	NA		
	standing orders posted and						
16.4	countersigned?						
	countersigned:						
	1. Comment on whether machinery	space PPE requirements are specified and comp	olied w	ith:			
		a night order book? If so, this should be checked			a		
	instruction for situations likely to		2 45 pr		9		
			~ ~~~~	lotod'	)		
		s own standing orders and are night orders being					
	Have the watch engineers countersigned the chief engineer's standing and night orders as read						
	and understood?						
	4. Watertight doors should be in full working order and operating/warning notices posted.						
	5. N/A if only one Engine Room Crew onboard						
	Are hot surfaces and exposed		Yes	No	NA		
16.5	lagging free of any evidence of fuel,						
10.5	hydraulic or lubricating oil?						
	1. All lagging should be free from oil	l, grease or other flammable contaminants and	maint	ained			
	without exposed hot surfaces.						
		sources of ignition in the vicinity of fuel, hydrau	ılic and	lubrio	atina		
	oil pipes.	, , , , , , , , , , , , , , , , , , , ,					
		//exposed hot surfaces above 220 degrees C in t	ha vici:	aity of	fuel		
		s. All machinery insulation and shielding should	pe pro	perly f	itted		
	and fit for purpose.						

Page **27** of **27** 

16.6	Are main switchboard, generators		Yes	No	NA
	and critical electrical equipment				
10.0	protected against water spray?				
		f failure of sea water pipes including fire mains or rd is not located in engine control room or othe			

16.7	Are emergency electrical power	Yes	No	NA			
10.7	supplies fully operational?						
	1. Emergency starting arrangements should be regularly tested and proved to be operational.						
	2. Instructions should be available to maintain/ restore main plant in the event of emergency.						
	3. There should be records of equipment being regularly tested.						
	4. Emergency generator fuel tank should be fully charged.						
	5. Concise starting instructions for emergency generator should be clearly displayed.						
16.8	Is the bilge system operational?	Yes	No	NA			
	1. Are the engine room bilge oily water pumping and disposal arrangements available for use?						
	2. Bilge system normal discharge should be via OWS without bypass and not directly overboard.						
	3. Are emergency bilge pumping arrangements ready for immediate use; is the emergency bilge						
	suction clearly identified and, where fitted, is the emergency overboard discharge valve provided						
	with a notice warning against accidental opening?						
	4. Bilge level alarms should be regularly tested and records maintained.						
	5. Check that the Oil Record Book is correctly completed for bilge pumping operations						
16.9	Is the steering gear/steering	Yes	No	NA			
	compartment free from defects?	and to the man and all look	44-4-				
	1. Emergency steering gear should have been tested quarterly and tests recorded - last test date?						
	2. Instructions for the changeover of steering gear from remote to local operation should be clearly						
		e to local operation shou					
	displayed in steering flat.	e to local operation shou					
	displayed in steering flat.  3. Access to steering gear should be unobstructed.	e to local operation shou					
	displayed in steering flat.	e to local operation shou					
	displayed in steering flat.  3. Access to steering gear should be unobstructed.	e to local operation shou
